

2010 Season in Värmland at Byns Camping & Kärälvdalen Kanot.

We have been busy preparing information for our guests. To help you get the most from your stay at Byns Camping & discovering the area.

To find us GPS Map Ref WGS 84
N60° 10.570 E13° 30.610

Note some navigation systems say to turn right in the middle of the bridge (not recommended)

Take the 2nd right after you cross the bridge opposite the sign for Byns Camping.

The road looks small but there is lots of space.

You can travel by train to Karlstad, Malung or Torsby
www.sj.se then by bus to Ekshärad www.varmlandstrafik.se
www.swebusexpress.se

We renewed our quality tour
Qualification for 2010-11
We strongly believe in this mark as it is about the whole business not just part of it as with others.

Svenska Kanot Förbundet
Membership shows we actively support canoeing in Sweden as well as being an approved center for hire.

Resegaranti

We have resegaranti which is a legal requirement for companies in Sweden.

When you pay any money in advance to book holidays or activities it is secured from loss. This should be held by all companies & booking agents, who take payment in advance.

You can check on the government web site for registered companies.

KLÄRALVDALEN KANOT CANOE SIZES

We have chosen to have several different models of Gatz canoe available for rental, mainly to offer our guests the canoe most suited to their needs.

The biggest difference is the number of seats.

2 SEATS. These obviously are suitable for 2 people to paddle on day or multi-day tours. They are also great for guests want to paddle solo.

3 SEATS. These models are factory made with 3 seats but the 3rd centre seat is removable to give extra equipment carrying capacity for 2 paddlers on multi day trips. On day trips, 2 small children can sit side by side on the centre seat.

4 SEATS. These are canoes fitted by the factory with 4 seats and are great for families or for 4 adults on day trips. One or both centre seats can be removed to provide more equipment carrying capacity. They are very adaptable, for instance, 2 small children can sit side by side on the wider centre seat with the 4th seat removed to add carrying capacity. Alternatively, 2 adults with plenty of equipment and maybe a dog will find it works well for them. They have a substantial load capacity, around 490 kg. They are not, however, big enough to take 4 adults plus equipment for multi-day tours.

One common problem for guests is refill gas for camping stoves. Despite the recommendations given when you buy stoves from shops that you can get refills of all types anywhere; it just ain't true. Please if you think you might need refills check for local stockists on the supplier's web site.

For our own groups we only use alcohol stoves & you can buy T Röd in supermarkets & petrol stations.

Or for large groups we use a stove that runs on Benzene which is also readily available fuel.

The choice is yours; but make it easy for yourself.

Fishing

We continue to sell fishing cards for Klärälven year -week -day-canoe & raft cards.

As well as Mellantjärnen & Acksjön /Acksjöälven. Money goes to the local fishing group & is used in conservation & restocking the fishing.

There are other cards available from the local fishing shop & tourist office for many nice local fishing spots.
